How to Jumpstart Your Internship/Job search
in the next few weeks:

1. Sign up for the Society of Women Engineers Evening with Industry is February 2, 2017. It’s a great opportunity to network with companies interested in hiring Bruin Engineers. Evening with Industry (EWI) is the largest student-run networking event on campus, boasting an attendance of 250 students and 35 companies annually. The event is comprised of 3 components: networking over appetizers, a 3-course banquet style dinner where students get to sit with company reps, and a private career fair afterwards. Sign up at tinyurl.com/ewisignup. Ticket prices go up every week so sign up now...

2. Winter quarter Engineering and Technical Career Fair: This is the BIG ONE. Many companies will be there to talk to you. Fifty-two companies on January 25 and thirty-three different companies on January 26. Both days are 10:00 a.m. to 3:00 p.m. in the Ackerman Grand Ballroom. To prepare, you can attend one of the HSSEAS Jobs and Internships Workshops described in the next item:

3. HSSEAS Jobs & Internships Workshops: Two workshops: Tuesday and Wednesday, January 17, 2017, 6-8 pm and January 18 2017 6-8 pm. Sign up for the one that works for you and see the full calendar of Info Sessions with companies at http://www.seasoasa.ucla.edu/internship-opportunities

4. Entrepreneurship & Startup Jumpstart: Tuesday January 17, 4-7 pm, 2nd floor room 200 of the Career Center: Strathmore Building North Entrance, 2nd Floors, 501 Westwood Plaza, Los Angeles, CA 90095. (Five minute walk from Engineering IV...)

5. How to Build you LinkedIn Profile: Monday January 23 6-7 pm in the Boelter Study Lounge. Presented by ESUC and the Career Center, this workshop shows you how to highlight your engineering experiences, network with other professionals in your field and in particular connect with UCLA Alumni in your field, and create your online brand. RSVP on Bruinview>Workshops.

6. HSSEAS Workshop on Summer Academic Research Internships: Monday January 23, 2017 4-5 pm in the Tesla Room 53-125 Engineering IV. This information session focuses on National Science Foundation sponsored research internships that are available across the United states but only for US citizens or permanent residents.
