

RESEARCH EXPERIENCES FOR UNDERGRADUATES

The **Research Experiences For Undergraduates (REU)** program offers research opportunities at 10 multi-hazard engineering equipment sites during a 10-week summer research program.

Study areas include **earthquake, wind, tsunami, coastal engineering, data management and cyberinfrastructure.**

Benefits of Participation

- **WORK** with experienced faculty and graduate students
- **WRITE** a professional, publishable research paper
- **NETWORK** with peers in research group meetings
- **LEARN** about graduate school and career development
- **BUILD** relationships through mentoring
- **GAIN** hands-on research experience

Travel funding provided, including stipend for room and board for the 10-week summer program. Underrepresented minority, women, and veteran undergraduate students are encouraged to apply.

REU Block 1: May 27-August 4, 2020

Florida International University
Lehigh University
University of California, Berkeley
University of Florida
University of Texas, Austin

- o Mobile shakers program
- o Cyberinfrastructure

REU Block 2: June 15 – August 21, 2020

Oregon State University
University of California, Davis
University of California, San Diego
University of Washington

Undergraduates participate in hands-on, research-based projects in earthquake, wind, tsunami, or coastal engineering. Sites also include data management and cyberinfrastructure components.

APPLY NOW
