

## A Letter From EarthH2O

As an educator dedicated to the excellence of your students, we know you care to share programs that support your students academic and professional development.

My name is [SirRoan Smiley](#), Executive Director at [The EarthH2O Program](#). As a burgeoning institution in Costa Rica, EarthH2O provides experiential learning in Renewable Energy, Watershed, Water Works and Sustainable Development.

We offer the best short term sustainability study abroad programing in the best location on the planet, Costa Rica, a country on course to carbon neutrality by 2021! Leverage our assets as a living classroom for sustainable development, environmental policy, engineering, and entrepreneurship by sharing our program with your students or heading you own group of students to Costa Rica.

Best of all, all students would complete 52 hours of study, receive 2 transferable credits and participate in a Capstone Project that is intended for [real world businesses](#). Add to that, hands-on access to billions of dollars of ecological and energy infrastructure.

Here is why we know you'll support the EarthH2O program by sharing our information and/or bringing your own group:

### **MORE VALUE**

- Our Programs cost \$800-\$1,400 less than similar programs in Iceland, Germany and Costa Rica.
- Costa Rica is an accessible travel destination for all U.S. students. (Low airfare and No Visa required)
- Costa Rica is a leader in eco & adventure tourism and our students have the [time of their lives](#).

### **SHARING IS CARING**

After a grueling stunt of finals, what's a better gift than sharing with them a course of a lifetime? Download the PDF [here](#), and forward it to students. The application process is simple and our reps are ready to walk students through a seamless process.

### **BRING A GROUP**

Let us coordinate all the logistics for your world class educational eco-travel with your students and colleagues. Leverage our past experience with customizing programs for Princeton, Penn State, Florida State & [Bucknell University](#). Plus, it's never too late to find a good reason to come to Cost Rica.

**Next Application Deadline is [FEB 1](#) for our **SPRING BREAK PROGRAM**.**

[Click Here](#) to view all the courses available in the coming new year.

We thank you for your time and look forward to seeing you in Costa Rica!  
Pura Vida & Happy Holidays!
