Job Description			
<p>We are currently looking for highly motivated and talented software developers with great ideas and a passion for making the world a better and more interesting place through technology innovation.</p> <p>Company Our company is a fast-paced high-tech organization located in Culver City, CA, with explosive growth potential in the field of cloud-based computing. Both, our partners and customers successfully leverage our cloud SaaS and PaaS solutions to solve some of their most challenging business problems. We are a software development company specializing in ASP.NET, C# and Java Web Applications.</p> <p>Responsibilities The right individuals will be responsible for creating ASP.NET web applications to greatly help our clients to simplify their daily business activities, cutting operational costs and enabling close collaboration. The candidates will also be able to apply his problem solving skills towards technical issues and collaborate to improve the existing framework and its applications.</p> <p>Candidates must have previous experience with Web development, ability to create documentation, work on independent projects or as a team member. Ultimately we are looking for highly motivated and quick learners, capable of multi-tasking.</p> <p>Qualifications</p> <ul style="list-style-type: none"> • Minimum 3 years of experience programming in C#, .NET Framework 2.0 (3.5 is a +) and ASP.Net (MVC) • ASP.NET, ADO.NET • WCF • IIS Configuration • HTML, JavaScript, CSS, AJAX, XML, XSLT • PL/SQL and/or Transact SQL • Bachelor or Master degree in Computer Science or a related field • Ability to work with minimal supervision and in a team environment <p>This is a full-time position. Availability: immediate</p> <p>Multiple positions are available for both, server-side and client-side development.</p> <p>If you (1) have a deep passion to innovate, (2) are motivated by responsible and original business, (3) want to work beside those just as inspired, (4) are energized by making people's lives easier with benefits of new technologies, and (5) are energized to succeed. Let's connect!</p>
