

Boeing Internship Opportunities

The Boeing Company currently has open requisitions for engineering internships for this coming summer. Many of these opportunities are well suited for Mechanical/Aerospace engineering majors. Interested students should apply using the link provided below. This link will take them to our internship website and a list of the available internships at Boeing.

<http://jobs-boeing.com/internships>

The opportunities are listed by Job Title and Location. By clicking on the Job Title, a detailed position description will be displayed and an "Apply Now" button will be available. It's pretty straight forward from there, but if any students need assistance applying, please contact me directly. I will be happy to walk them through the application process.

Randall E. Straub
Senior Manager
Design & Manufacturing Engineering
Boeing Defense, Space & Security
