Open Chief Technology Officer Position Opportunity
(Students Welcome To Apply)

Professional Tutoring Service Startup Seeks a Web Developer/Mobile App Developer to Groom Into a CTO

- *Are you ready to be a key founding team member for a dynamic, new Startup with an educational mission and flexible work schedule?*

- *Are you eager to apply your knowledge of web business applications and project workflow to develop an integrated, innovative digital platform?*

- *Do you have the desire to devote your programming expertise to a Startup for equity stock ownership and assume a Chief Technology Officer role?*

· We are a Professional Tutoring Service Startup seeking a Web Developer/Mobile App Developer to help contribute to the programming, interface, website, and mobile app design of our service. As a programmer, you will work closely with the company founders, and your work will potentially impact a vast community.

· Our work schedule is unique – you are able to work on your programming duties at a pace that's conducive to the productive growth of the business.

· We're Beverly Hills-based, and will accept applicants from the greater LA area.

Web Developer/Mobile App Developer Position Requirements:

-degree in a programming field, or in process of attaining a programming degree
-high programming capacity and aptitude, web/mobile app dev, project workflow
-understand programming languages, end-user design experience preferred
-must be legally able to work in the US, and have expertise and experience with:

HTML and SASS responsive web layout	CRUD and RISE app
JQuery logic	MVC Server app
JavaScript (all levels) & Developer Tools	Relational databases (NoSQL and SQL)
Security Testing	AJAX / Custom API with Express and MongoDB
JS MV* and JS MVC Frameworks	Digital and Mobile Payment Processing

Compensation:

- Shared Revenue model based on company transactional revenues
- Company Equity Stock Share Ownership is part of compensation package
- * [This is a non-salaried, non-hourly position. Further details upon interview]

Please reply with your resume and links/attachments to your web/mobile app development work to **allprotutors@gmail.com** . Thanks for your interest!
