- The program is designed for individuals interested in pursuing professional careers in construction/infrastructure/transportation industry;
- The program is a seven week course which consists of seven seminars held once a week every Thursday (seminars are four hours long and are divided into two hour segments);
- Seminar topics are, for example: Introduction to the Industry, Project Controls, Document Control, Labor Compliance, Safety on the Project, Soft Skills such as Networking Skills, Relationship Building Skills, Critical Thinking Skills, Communications Skills, etc.
- Technical seminars will be facilitated by subject matter experts from large construction and engineering companies such as Skanska, CDM Smith, Walsh/Shea, Jacobs, AECOM as well as entities such as LA City.
- The program is a great opportunity for senior students or recent graduates to gain insight into major infrastructure projects, learn what it takes to be successful in that industry and network with potential hiring managers.
- The program is completely free to participants! Their only investment is commitment to attend all seminars.
- The program will start on September 22 and end on November 3. The seminars will be held every Thursday from 6 to 9 pm at LATTC campus in downtown LA.
