

[CodeHS](#) is hiring software engineering interns for the summer of 2016!

Learn more or apply here: <https://codehs.recruiterbox.com/jobs/fk0hgox>

### **What is CodeHS?**

CodeHS is a site to help teach computer science to high schools. We're working with hundreds of thousands of students and over 14,000 teachers all over the world. We help provide web-based curriculum, teacher tools, as well as professional development to schools looking to teach computer science.

### **Our Intern Program**

You'll get to work on high impact projects used by students learning computer science all over the world. Read about the experience of previous interns on our blog here: <https://medium.com/working-at-codehs-2>

Thanks, and feel free to email Jeremy at [jk@codehs.com](mailto:jk@codehs.com) if you have any questions!
