

College Hire for OneWest in Pasadena

Come join OneWest Bank's Forecast & Modeling Group (FMG) as our newest analyst. FMG has very diverse responsibilities that range from the bank's strategic plan and budget to building sophisticated financial models. Our ideal candidate is excited to learn a ton about finance and banking and has strong technical skills. We believe that the best way to solve problems is with strong processes and tools. As a result, you should be ready to roll up your sleeves and build automated solutions to your recurring responsibilities.

QUALIFICATIONS:

- 0-2 years of work experience
- Degree or minor in science, technology, engineering, or mathematics
- Interest or experience in finance, fixed income, or banking
- Experience with C#, Java, C++, Python, Ruby, JavaScript or similar
- Right to work in the US
