

About Us:

We are a music-oriented online startup based in Los Angeles. Our site is based on PHP and MySQL with a strong focus on multimedia manipulation.

Role Summary/Purpose:

We are looking for a part-time web developer to join our team. Initial work will focus on media manipulation, so related experience is a plus (e.g. familiarity with GD, FFMPEG libraries; integration with encoding.com, Amazon S3; etc.). Work down the road may be more geared towards business intelligence and data analytics.

This role is for a student intern, not an experienced hire nor a web development firm. Much of the work can be done from home.

To apply, please email dtang4@gmail.com.

Essential Responsibilities:

- Web development

Qualifications/Requirements:

Basic Requirements:

- Experience with PHP, MySQL, Javascript/JQuery, CSS
- Experience with media manipulation a plus (e.g. video encoding)
- Minimum GPA 2.7 (on 4.0 scale)
- Time commitment should be consistent 10 /week
- Able to work independently with minimal supervision – much of the work can be done at home

Eligibility Qualifications:

- Must be able to work as a contractor.

Desired Characteristics:

- Interest in web development and music
- Strong work ethic
- Creative thinker
