

Join the next cohort of Cyclotron Road innovators

Cyclotron Road is a premier fellowship and incubator for early stage hard-tech energy innovators, sponsored by the U.S Department of Energy at Lawrence Berkeley National Labs (LBNL).

Selected innovators are provided with:

- A competitive living stipend, travel allowance, and health benefits for up to two years
- Project funds, lab space & technical collaboration support from Berkeley Lab experts and facilities
- Clear ownership rights to developed IP
- Cyclotron Road mentorship, programming, and network of advisors

Applications for Cyclotron Road Cohort 3 are now open. Visit cyclotronroad.org/apply to register your application today.

At Cyclotron Road, we believe people are the drivers of breakthrough innovation. As a member of our cohort you will work side-by-side with other top energy innovators, engage with scientific experts, leverage cutting edge facilities at Berkeley Lab, and be surrounded by an unparalleled network of mentors, partners, and financiers. Our purpose: to drastically reduce the time and cost of critical technology development while helping you identify the most suitable business models, partners, and financing mechanisms for market entry and scalable impact.
