### ENGINEER CHANGE THROUGH RESEARCH

## Undergraduate Research Program (URP)

The purpose of URP is to help undergraduates secure research positions and communicate and publish their work.

### URP's resources includes:

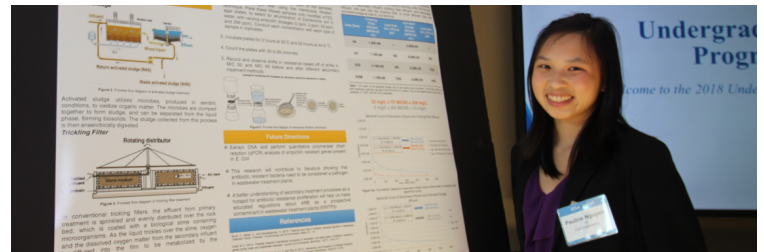

- Campus-wide portal, interactive workshops, weekly email blasts, and research postings

### URP Research Journal

## ENGR 24: Finding an Undergraduate Research Opportunity Seminar

- This seminar is designed to engage engineering students in the process of soliciting, securing, and beginning research.
- Some of the course objectives include:
  - Utilize the UCLA Research Portal
  - Identify research lab match
  - Create your research resume and cover letter
  - Learn to read and review a journal article
  - Prepare for faculty interview

## ENGR 25: Communicating Research

- This seminar is designed to engage engineering students in the process of communicating formal research.
- Some of the course objectives include:
  - Learn and practice the three main forms of communicating research: oral, written, and visual
  - Complete a formal technical presentation and research poster to publish in the Samueli URP Journal
  - Complete a formal research technical report

## UNDERGRADUATE INTERNSHIP PROGRAM

### ENGINEER CHANGE THROUGH INTERNSHIPS

#### Undergraduate Internship Program (UIP)

UIP is a new initiative to assist undergraduates in searching and securing internships that could better prepare them in their careers.

- 85.4 % of 2019 graduates completed industry internships
- 30 Career Fair related events with over 6650 engineering students attending
- Over 900 companies seeking UCLA engineering students

#### Engineering 23 Seminar: Finding an Industry Internship seminar

- This seminar is designed to engage engineering students in the process of formal career development.
- Some of the course objectives include:
  - Create resumes and cover letters
  - Practice elevator pitch
  - Activate LinkedIn and Handshake profile
  - Prepare for a mock interview
  - Create a career action plan

#### Workshops and Support

UIP offers multiple workshops and resources available to undergraduates throughout the academic year:

- Elevator Pitch Workshops
- LinkedIn & Handshake Workshops
- Career Fair Preparation Workshops
- Career Center @ Engineering Advising
- Peer Advising Drop-Ins @ the Engineering Student Resource Center
