

Drymaxx Air Solutions, LLC  
Sales Engineer

We are looking for an energetic and dynamic individual to join our team and help cement our company's current position as one of the premier and fastest-growing manufacturer's reps in the HVAC industry.

Drymaxx Air Solutions is a manufacturer's rep firm specializing in custom applications and engineered systems for fresh air solutions, desiccant and refrigeration dehumidification systems, humidification systems, coils, evaporative cooling systems, UV light disinfectant systems for both air and water, and air conditioning equipment. We are committed to providing excellent service before, during and after the sale.

**THIS POSITION REQUIRES:**

- Competitive nature and results-driven personality
- The ability to develop new customers whilst maintaining relationships with existing customers
- The ability to communicate with customers through presentations, face-to-face meetings, in writing and over the phone.
- Primary job duties include prioritizing sales calls, setting sales schedules, customer site visits, visiting existing and new accounts, customer follow up, and processing incoming orders.
- College degree
- Basic Mechanical HVAC Fundamentals

**THIS POSITION PROVIDES:**

- Draw + bonus/commission-commensurate with abilities
- Paid Holidays
- Paid Vacations
- 401(k) plan
- Auto allowance
- Health Insurance Allowance
