ELECTRICAL ENGINEERING STUDENT ENGINEER (Year-Round Internship)

SALARY:

\$13.97- \$20.16 per hour

Salary is based on the number of engineering units completed.

DUTIES:

Students will assist Engineers/Architects in the preparation of plans and specifications for projects involving the design of electrical systems such as power distribution, lighting, communication and other high and low voltage electrical systems. Other duties would include making copies, scanning documents, processing shop drawings and record drawings, preparing plans for permits, and coordinating with other agencies.

REQUIREMENTS:

Candidates must be of at least sophomore standing and maintain a minimum of 9 semester units or 12 quarter units at a recognized college or university. Candidates must also have a minimum 2.5 GPA. It is preferred that the candidates have at least one full year remaining before graduation. Provide expected graduation date.

Working knowledge of AutoCAD is required.

This is a year-round position. During the semester/quarter, students must work between 16 to 20 hours per standard work week. Each work shift must be at least 4 hours long. Office hours are 7:30am – 5:30pm. During the school breaks, students are expected to work 40 hours per week.

CONTACT:

Please send a résumé by **Friday, February 12, 2016** to the attention of Mr. Hugo Cisneros, Engineering Division via email to hcisneros@portla.org, via fax to (310) 521-0332, or via mail to the above address.

All correspondence regarding this job posting will be sent via e-mail. Please provide a valid email address.

Interviews will take place in early March.
