ENGINEERING 23: FINDING AN INDUSTRY INTERNSHIP SEMINAR

2 UNITS
PASS OR NO PASS

TUESDAYS
2:00 - 3:50 PM

VIRTUAL

This seminar is designed to engage engineering students in the process of formal career development. Students will learn various components of an internship/job application and practice preparing relevant materials, which is essential in learning how to solicit, apply, and interview for internship/job positions.

Some of the course objectives include:

- Create resumes and cover letters
- Practice elevator pitch
- Activate LinkedIn and Handshake profiles
- Prepare for a mock interview
- Create a career action plan
