ENGINEERING 24: FINDING AN UNDERGRADUATE RESEARCH OPPORTUNITY SEMINAR

2 UNITS
PASS OR NO PASS

THURSDAYS
2:00 - 3:50 PM
VIRTUAL

This seminar is designed to engage engineering students, primarily those without prior experience, in the process of soliciting, securing, and beginning research. Students enrolled in this seminar should be able to obtain and start in a lab by the end of the quarter.

Some of the course objectives include:
- Utilize the UCLA Research Portal
- Identify research lab match
- Create your research resume and cover letter
- Learn to read and review a journal article
- Prepare for faculty interview
