

ELECTRICAL ENGINEERING STUDENT INTERNSHIP
\$10.00-\$20.00 / hour*

Mission Statement

The mission of this electrical engineering internship is to provide a student with opportunities to enhance their education through the practical application of their skills. It is the goal of the Districts to provide an undergraduate or graduate student interested in a career in electrical engineering the opportunity to consider electrical power and control systems design and the other related work performed in electrical engineering as a career option.

Puente Hills Gas-to-Energy Facility

Description of the Electrical Engineering Internship

One student intern position is offered at our Joint Administration Office (Whittier, CA) in the Electrical and Instrumentation Design Section. The student intern will work alongside electrical engineers and participate in a variety of assignments. An intern may work part-time during the school year.

Joint Administration Office, Whittier

Internship Application

Applications must be received no later than **October 9, 2011** to be considered. Interested students need to apply via the Sanitation Districts' website at www.lacsd.org. Please click on the Job Opportunities link and then the Student Worker Opportunities link to access the job posting and application.

Selection Process

Applicants must be majoring in a field applicable to a career in Electrical Engineering at an accredited college or university. Coursework in electrical power systems is highly desirable. The most qualified applicants will be invited to an interview. The candidate selected for hire must undergo a job-related pre-employment physical, which includes a drug and alcohol test.

Electrical Engineering Student Intern \$10.00-\$20.00/hour*
