Greetings Engineering Students,

The Summer Abroad 2018 deadline has been extended to April 13th. **Fast Track Enrollment is now available** – which allows you to complete enrollment in an hour. All UCLA students—from freshmen to graduating seniors—are welcome to enroll! Ask your Financial Aid office about taking your Summer Aid with you.

**Programs that may be of interest to Engineering students:**

**Japan, Sustainability of the Built Environment**
**Courses: Engineering 35. Statics plus Civil and Environmental Engineering 198**
Learn the principles of design for sustainability and their applications within the built environment of dynamic downtown Tokyo while also exploring many cultural treasures in Tokyo, Kyoto, Gifu, and Kyushu.

**Iceland, Thermodynamics in the Land of Fire and Ice**
**Courses: Engineering (ENG) 105 Thermodynamics & 198**
What better way to study thermodynamics than in a country that is powered completely by geothermal and hydroelectric resources? From thundering waterfalls to towering volcanos and geothermal fields, you will experience Iceland in all its intrigue.

**Bhutan, Introduction to Geographic Information Systems**
**Courses: Landscape Architecture (LDA)/Applied Biological Systems Technology (ABT) 150 &198**
Learn how to use geographic information systems (GIS) in the peaceful, culturally rich, and biodiverse country of Bhutan in the Himalayan Mountains, where progress is measured in Gross National Happiness.
