

Etsy Hacker Grants: Supporting Women in Technology

Etsy is announcing a new scholarship and sponsorship program for women in technology: we'll be hosting the summer 2012 session of Hacker School in the Etsy headquarters, and we're providing ten Etsy Hacker Grants <<http://www.etsy.com/hacker-grants>> of \$5,000 each — a total of \$50,000 to women who want to join but need financial support to do so. Our goal is to bring 20 women to New York to participate, and we hope this will be the first of many steps to encourage more women into engineering at Etsy and across the industry.

See <http://www.etsy.com/blog/news/2012/etsy-hacker-grants-supporting-women-in-technology/> for more information, and how to apply (<http://www.etsy.com/hacker-grants>)
