

Evening with Industry

Evening with Industry (EWI) is UCLA's largest student-run networking event, hosted exclusively by the Society of Women Engineers (SWE) during the Winter quarter. It boasts an attendance of over 30 companies and 250 students annually. Company representatives and students alike enjoy the unique networking style this event provides - the night begins with networking over appetizers, after which students enjoy connecting over a 3-course meal with representatives from a company they are interested in. The night then ends with a private career fair where students can network with the other companies in attendance. EWI provides a much more intimate environment than some of the other career fairs held on campus to truly connect with the company representatives in attendance.

The event takes place on February 2 at 5:30pm in Carnesale Commons. Tickets sales start the first week of winter quarter. Stop by the corridor outside SEAS Cafe (5th floor Boelter Hall) to get tickets and other information regarding the event!

SWE presents:
Evening With Industry

When: February 2, 2017
