

Global Information Security

Bank of America Global Information Security is a world-class diverse and inclusive workforce with more than 2,000 employees across 13 countries who protect bank information systems as well as client and employee data around the globe 24/7

- Cybersecurity is a top priority at Bank of America, and we believe the best talent and the best technology equals the best protection.
- Bank of America's Global Information Security leaders look for individuals who are passionate about technology, creative problem solvers, and want to join a world-class organization. We look for individuals with certifications in Certified Information Systems Security Professional (CISSP); SAS Certified; Certified Cyber Forensics Professional (CCFP). Positions include Security Engineers, Disaster Recovery teams, Information Protection Managers, Information Security Officer, Cyber Security Capacity Engineer, and Senior Information Security Incident Manager.
- We actively recruit qualified and experienced individuals from diverse backgrounds and experiences, including military veterans, government offices such as Homeland Security, and other related industry sectors.
- As an industry leader, we partner with government agencies, industry organizations, other financial institutions and our internal lines of business to create and maintain multi-layered defenses needed to address increasingly sophisticated and persistent threats.

We offer career opportunities in:

- **Cybersecurity operations**
- **Cybersecurity technology**
- **Risk management**
- **New technology assessments**
- **Data management**
- **Policy management**
- **Program/project management**
