U.S. Biologics Technical Development Co-op and Intern Program

U.S. Biologics Technical Development (USBTD) develops, delivers and supports robust, cost-effective production methods and technologies to meet the needs of Genentech's Research, Development, Commercial and Product Operations groups. The group has long been recognized as a world leader in developing large-scale manufacturing processes, sophisticated analytical methods and effective drug delivery systems.

We are currently recruiting for positions in the USBTD Co-op and Intern Program for our South San Francisco, CA, headquarters. Six-month co-op positions will begin in January 2012 and July 2012, and three-month internships will begin in May/June 2012. As a co-op or intern, you will be assigned a project in one of the following areas within USBTD:

- Cell Culture and Fermentation
- Purification
- Business Excellence
- Protein Analytical Chemistry
- Pharmaceutical and Device Development
- Strategy and Training
- Pilot Plant Operations
- Process Development Engineering
- Packaging Engineering

This program provides a broad perspective and appreciation of the development of new processes, methods and technologies at different production scales in the biotechnology industry.

Candidates applying for the USBTD Co-op and Intern Program should be passionate about science/engineering and thoroughly enjoy the challenges associated with complex problem-solving. Candidates must be highly self-motivated and willing to work independently or as part of multi-disciplinary teams that work hard in an atmosphere of casual intensity developing medicines for unmet medical needs.

Other qualifications include:

- Enrolled in sophomore year or higher at a college/university or any year at a graduate school
- Preferred disciplines: chemical and biochemical engineering, biomedical engineering, bioengineering, pharmaceutical engineering, analytical chemistry, biochemistry, molecular biology, microbiology, biology or related disciplines
- Demonstrated high level of scholastic achievement
- Relevant work experience in research labs or the biotechnology industry is highly desirable

To apply for any of these positions, please email your resume to **USBTDcoop2012-d@gene.com** with the subject line "Resume for Co-op/Intern" AND submit your resume to **careers.gene.com** for job ID **00380394**.

In your email application, please include the following:

- Availability:
 - Six-month winter co-op (begins January 2012)
 - Six-month summer co-op (begins July 2012)
 - Three-month summer internship (begins May/June 2012)
- USBTD area preference(s)
- Current GPA

Applications will be reviewed on an ongoing basis through March 2012. For additional information or to learn more about our programs, please visit **careers.gene.com**. Genentech is an equal opportunity employer.

In January 2011, Genentech was named to FORTUNE's list of the "100 Best Companies to Work For" for the 13th consecutive year.
