

Launch your Software Engineering Career at ITG: Calling all Dec 2015 – May 2016 Students!

ITG is a global independent execution and research broker headquartered in NYC with a large development office in Culver City, CA. We are seeking high caliber software developers for 5 roles within our LA Office utilizing a variety of languages from Java, C++, C#, and Python (just to name a few!).

ITG was just recognized by the Wall Street Letter for “Best New Product” with our Hedge Fund Solution and our US technology team was awarded “Best Infrastructure Initiative” award for their launch of an enterprise multi-asset-class data storage and archive platform, leveraging an innovative Hybrid Cloud solution. The new storage solution reduced ITG’s per-terabyte data costs by 40% while also improving speed and processing power. *ITG invites, inspires and rewards innovation and independent thinking. Show us your inner genius. [To learn more, check out our innovation videos here.](#)*
