

Internship Opportunities For Software Engineers

Silvus Technologies, Inc.
10990 Wilshire Blvd., #1500,
Los Angeles, CA – 90024

Silvus Technologies has internship positions available in the following area:

- Embedded networking software development
- Web interface development.

Silvus provides competitive salaries and a flexible working environment. Interested candidates are invited to send a copy of their resume to jobs@silvustechnologies.com.

About Silvus:

Founded in 2004, Silvus is at the forefront of delivering multi-antenna mesh networking solutions designed specifically to meet the needs of military, first-responder and commercial markets.

Opportunity:

To participate in the development and testing of various networking applications and features on Silvus' StreamCaster MIMO Mesh radios. Possible topics are mesh routing algorithm development, network management software development and Linux device driver development.

Qualifications:

- Proficiency with either C or Javascript.
- Familiarity with Linux and TCP/IP networking.
- Experience with socket programming.
- Experience with Python a plus.
- Familiarity with wireless communications a plus.

Contact Information:

Qualified candidates should send their resumes to jobs@silvustechnologies.com with subject line 'Software Intern'.
