Enroll in ENGR 23

- ENGR 23 is a new seminar course on how to find an internship.
- Find out more in the course syllabus: https://tinyurl.com/ENGR23-Spring20

Professional Networking

- Create a LinkedIn account to showcase your personal profile.
- Create a Handshake account and attend virtual info sessions.

Resume Building Experiences

Technical Experience

- Explore the projects put on by engineering student organizations.
- Talk to professors whose research interests you about working in their lab.
- Consider joining a formal research program.

Leadership/Soft Skills

- Apply for committee or leadership positions in student organizations or technical projects.
- Volunteer for a cause or campaign of interest to you - visit the UCLA Volunteer Center’s website for opportunities.
- Seek out a part-time job that allows you to develop important soft skills.

Feedback & Advising

- Join MentorSEAS: Seek advice from your mentor.
- Meet with your faculty advisor: Network with professors in your department.
- Attend Undergraduate Internship Program drop-in advising hours if you have any questions.
- Join UCLA One and request an alumni mentor.

Tools & Resources

Searching

- Create a Handshake account and complete your profile.
- Use Handshake’s built-in job search function to find relevant opportunities.
- Visit the UCLA Engineering Career Pathway Resources website for internship and job postings. https://www.seasoasa.ucla.edu/internship-opportunities-2
- ESUC Industry Calendar: http://www.esuc.ucla.edu/engineering_calendar
- Specific engineering professional organizations (such as AIChE) usually have their own job boards.

Applying

- Apply through Handshake or the company’s Careers website.
- Provide your resume at info sessions and career fairs.
