

Job Opportunities at The Metropolitan Water District of Southern California

Come work for the largest importer and distributor of water in the Western United States, with a proud record of reliably delivering high-quality drinking water to Southern California for over 75 years! Our system conveys, treats and delivers an average of 1.7 billion gallons of water per day to 17 million customers in our service area.

Our employees enjoy highly competitive salaries and excellent retirement, medical, dental, 401K, and other benefits (e.g., tuition reimbursement, etc.). The monthly salary range for our entry-level Junior Engineer positions is \$4,824 - \$6,354.

The Engineering Services Group currently has nine entry-level professional engineering positions open within various teams with a focus on one of the following engineering disciplines:

- Chemical
- Geotechnical
- Civil
- Materials
- Corrosion
- Mechanical
- Electrical
- Structural
