\* Laserfiche Infosession, hosted by ACT \*

When: Wednesday, October 27 @ 6 PM

Where: BH 4760

Description:

Laserfiche creates simple, elegant document management solutions that help organizations run smarter. The conversion of paper documents into digital images provides fast retrieval, various search capabilities, reduction in storage error, and easy backup and disaster recovery solutions. Since 1987, the company has led the document imaging industry in offering flexible and easily integrated document management solutions for a broad range of business and government needs. Today, Laserfiche serves over 30,000 organizations. The company has offices in Long Beach, California, Hong Kong, and Shanghai along with resellers all over the world. With our rapidly growing customer base and the increasing popularity of document imaging, Laserfiche is growing rapidly and is always looking for qualified applicants.
