Job Description:

We are looking to hire 2-4 undergraduate research assistant(s) for a maximum of 30 hours per week for the summer. Hourly wage will range from \$10-14 based on qualifications. This study focuses on the effects of urban form and traffic management strategies on pedestrian exposure to air pollution. Research assistants will participate in conducting field testing in Downtown Los Angeles which may include carrying video cameras and air monitoring equipment. Strong candidates should exhibit interest in transportation and environmental planning. Qualifications include detail oriented, organizational skills, and exercising care while handling sensitive equipment. A means of travel to and from field sites is preferred. Also the ability to think critically about research design and experience conducting quantitative and qualitative analyses are highly valued.

To apply for this position, please email a cover letter, resume, and two reference letters to the contact above. *The application is due at 5pm on Monday July 8, 2013. Interviews will be conducted on July 12th.*
