

Mechanical Engineer/Designer

[The Tiffen Company](#) - Glendale (Greater Los Angeles Area)

Job Description

We are actively seeking a **Mechanical Engineer/Designer** to assist in the design and support of primarily **Steadicam** related camera support products. The position requires a creative thinking individual with good mechanical troubleshooting skills and the ability to take products from conception thru to production in a fast paced manufacturing environment.

The position requires a multifaceted individual adept at a multitude of manufacturing processes but primarily with machine, plastic injection molding, and sheet metal design and component manufacturing.

The successful candidate will require the ability to work well in a team and on an individual basis with little supervision. The position also requires interfacing with vendors and manufacturing staff to insure products and designs are built to the highest quality standards which includes the creation of supporting documentation such as assembly procedures, test procedures, QC procedures, BOM's and technical documentation.

Desired Skills & Experience

- Excellent communication skills, both verbal and written.
- Minimum 2-3 years experience with SolidWorks 3D solid modeling a must.
- Strong drafting skills and knowledge of GD&T required.
- Proficient with MS Word/MS Excel/Office software.
- Six Sigma/ Manufacturing Engineering skills/education a plus.
- Graduate diploma in Mechanical Engineering.
- Minimum 3 years of related post graduate experience preferred.
- FEA analysis experience a plus.

Company Description

Tiffen has been a leading US manufacturer of glass filters and other name-brand products for digital, still, video, motion pictures and television for over 70 years. Tiffen products are used in almost every major movie and TV production around the world. Tiffen filters have earned two Technical Achievement Awards and a Scientific and Engineering Award from the Academy of Motion Picture Arts and Sciences for their ColorCore™ Filter Lamination Process (1985, 2000) and Ultra Contrast Filter (1993) respectively, as well as a Prime Time Emmy® Award for filter engineering excellence. The Tiffen Company in addition to their optical glass filters and digital imaging software feature the following lines: Davis & Sanford, Domke, Lowel-Light, Saunders, Oscar award winning Steadicam, Strobframe, and Zing.
