

## Opening for Full-Time Mechanical Engineer

**Surfx Technologies LLC**  
**2631 Manhattan Beach Blvd., Redondo Beach, CA 90278**  
[www.surfxtechnologies.com](http://www.surfxtechnologies.com)

Surfx is looking for a full-time mechanical engineer that will help us design, develop and test atmospheric plasma products for the aerospace, medical device, and semiconductor packaging industries. We are seeking a highly organized person who can work individually, or in a team, in a small business environment. The candidate will work with Surfx engineers in R&D and manufacturing, and with sales representatives when customer facing is required. Product design will require a working knowledge of fluid mechanics, heat transfer, mechanics, etc.

### Required qualifications:

- Bachelors or Masters degree in mechanical engineering.
- US Citizen or permanent resident.
- Skilled in SolidWorks, CAD/CAM, and GD&T.
- Strong communication skills, including technical writing and oral presentations.
- Ability to work independently, or in a team.

### Desirable Skills:

- Self starter, team leader.
- One to three years of product design and development.
- Knowledge of electrical system architecture and design.
- Familiarity with radio frequency power systems.

Compensation is competitive and will be commensurate with experience.

Please provide a resume listing pertinent job/project experience and unofficial transcripts. The applicant should have completed two years of University-level education. Surfx Technologies LLC is an equal opportunity employer. U.S. Citizenship or permanent residency is required.
