

## Northrup Grumman Summer Internships!

In the last few years, we have had a very successful internship program that led to quite a few employment opportunities. The NGWE/WINS (women's groups) have events geared specifically toward interns to make them feel welcome and get them involved.

To apply: Students interested in our internship opportunity can apply online at <http://careers.northropgrumman.com/>. They'll need to Select our Students and New Graduates Portal and apply to req #12016677.

Deadline: The deadline is 1/31 and the final decision will be made in February.
