

Now accepting applications for Fall 2017 Insight Fellowships

800+ Insight alumni are now data scientists and data engineers at Facebook, LinkedIn, The New York Times, Apple, Airbnb, Netflix, Memorial Sloan Kettering Cancer Center, Tesla, Seven Bridges Genomics, Twitter, Bloomberg, NBC, Microsoft, and 200+ other top companies.

Insight Fellowship:

- 7 week, full-time, post-graduate training Fellowship leading to full-time industry employment
- Mentorship from leading industry data scientists, data engineers, and AI experts
- Join an active community of Insight alumni
- Self-directed, project-based learning with support from Insight throughout the whole process
- Tuition-free with need-based scholarships available to help cover living costs

Next Insight Fellowships:

Starting July 17th (deadline May 22nd):

[Artificial Intelligence](#) in New York

[Data Science](#) in Seattle

Starting September 5th (deadline June 26th):

[Artificial Intelligence](#) in Silicon Valley

[Data Engineering](#) in New York and Silicon Valley

[Data Science](#) in Boston, New York, Silicon Valley and remote

[Health Data Science](#) in Boston and Silicon Valley

We are looking for alumni, post-docs, or students graduating by December 2017, who can participate full-time during the Fellowship and interview period following. Please note that our Data Science and Health Data Science Programs have a PhD requirement (our Artificial Intelligence and Data Engineering programs have no education requirement).
