

ENERGY SOLUTIONS

Energy Efficiency Project Manager II

Founded in 1995, Energy Solutions is an employee owned energy efficiency and demand management engineering, program design and implementation consulting firm. Our mission is to create large-scale environmental impacts for our clients by implementing market-based solutions and developing policies that contribute to these goals. We foster this mission by retaining a talented and committed team, providing a stimulating, healthy and participatory workplace, and emphasizing creative new approaches that maximize the value of our services. With 90+ staff, we are honored to serve a diverse range of utility, public agency, commercial and industrial clients.

We are looking to fill an Energy Efficiency Project Manager II position in our Orange office. As a member of the Energy Solutions team, you will have a broad impact on energy efficiency markets and greenhouse gas reductions through our work for major California and Southwest utilities, the California Public Utilities Commission, and other national leaders in energy efficiency. This unique blend creates a perfect environment for individuals who want to have an active voice in shaping the energy future in California and beyond.

Daily responsibilities for our Project Manager II position include, but are not limited to:

- Overall direction and management, quality control , and completion of project and project staff deliverables
- Monitoring progress of projects and communicating progress to management and clients from project inception to completion
- Assisting with business development efforts
- Identifying new business leads
- Interacting regularly with clients
- Supervising junior staff

Minimum qualifications for the Project Manager II position include:

- 5 years of combined graduate school and relevant professional work experience
- A degree in an energy-related discipline including engineering, environmental policy, business or natural resources
- Previous supervisory and project management experience including budget development and management
- Strong written and verbal communication skills
- Experience with Microsoft Office
- Ability to work independently with minimal supervision

Energy Solutions currently has offices in Oakland and Orange, CA. The Orange office provides support for our growing Southern California client base. Compensation is commensurate with experience, and competitive with the industry. Energy Solutions provides an excellent benefits package, including a generous retirement plan, medical, dental and vision insurance, other pre-tax contribution plans and an Employee Stock Ownership Plan (ESOP). Please email a cover letter with your available start date and your resume to jobs@energy-solution.com. For more information about Energy Solutions, please visit us on our website at www.energy-solution.com. Information will be requested to perform the compulsory background check, drug screens are required and being authorized to work in the U.S. is a precondition of employment. EOE.
