

## **PPG Industries, Inc.**

---

### **Unlock Your Potential with PPG!**

Are you interested in working in a dynamic, growth oriented environment and being part of a successful, global company? If so, then we would like you to consider joining our team. Ranked #161 on the Fortune 500 list, PPG Industries, Inc., headquartered in Pittsburgh, PA., USA, is a global supplier of paints, coatings, optical products, specialty materials, chemicals, glass and fiber glass. The company is a leader of each of its markets, and it has earned a strong reputation for streamlined, efficient manufacturing and leading-edge technology and product solutions. PPG's global sales in 2010 were 13.4 billion. The company has 140 manufacturing facilities and equity affiliates and operates in more than 60 countries around the globe. As of the end of 2010, PPG employed more than 38,000 people across the world. PPG employees and retirees own about 6 percent of the firm's outstanding stock. As owner-operators, PPG's people share a deep sense of pride and strong commitment to their company. PPG is a publicly owned company, with shares traded on the New York Stock Exchange (symbol: PPG).

### **Description**

PPG is offering a mechanical engineering internship that provides part-time employment during the academic year. During this work period, interns can look forward to assuming real responsibilities in real jobs. We regard interns as professionals rather than students and give them challenging assignments to provide exposure to various career opportunities within their disciplines. Interns will learn to plan, organize and direct project work by enlisting sound technical and business practices. The intern's role will be to support the business by providing PPG Aerospace with concepts, designs, analysis, and development of mechanical or structural products, including parts and components as required. Interns will gain knowledge of the manufacturing processes, industry, business (understand market and customer perspective), products (composites), and tool function.

Candidates should have demonstrated leadership skills and be highly self-motivated individuals. Students must have a GPA of at least 2.8 and be authorized to work permanently in the United States.

Starting location(s): Sylmar, CA

If you are interested in applying, please send your resume to [schmitt@ppg.com](mailto:schmitt@ppg.com) and enter "Recruiting-ME Internship" in the subject line.

Thank you for your interest in PPG!
