

RUFUS LABS - WEB DEVELOPER

We are looking for a talented web developer to join our team. You will be working alongside our Product and Marketing Teams to assist in building, launching and maintaining our website analytics dashboard.

What You'll Do:

- Develop cross-browser compatible and mobile websites
- Maintain existing websites, adding new features and content editing
- Add new pages as necessary, working with designers and stakeholders
- Troubleshoot and resolve issues, problems, and errors encountered across our web properties, internal applications, and systems as reported or experienced
- Act as a technical consultant for any new website functionality prior to implementation
- Stay informed on industry trends, web development techniques and advancements in the area of UX and responsive frameworks
- Help make high-level strategic decisions with the rest of the team

Skills You'll Need:

- 2-3 years of web development experience preferred
- Strong understanding of HTML 5/CSS 3/JavaScript, jQuery and PHP
- Knowledge of HTML 5 animations a plus
- Understanding of basic search engine optimization
- Experience working with WordPress and other content management systems
- Familiarity with browser testing and debugging
- Experience with Adobe Creative Suite
- Flash would be a plus
- Expertise in web site performance optimization
- Experience with both relational and non-relational database, knowledge of database design
- Ability to code responsive websites
- Familiarity with responsive frameworks like Foundation and/or Bootstrap is a plus
- Eye for detail & highly developed organizational skills, including the ability to prioritize tasks and meet deadlines
- Experience building sites based on SEO, accessibility, and best practices
- Able to translate PSDs or other static designs to HTML and CSS
- Experience with Adobe Photoshop and other relevant design software
- Self-motivated and able to efficiently run with a project
- Knowledge of jQuery library
- Familiarity with User Acceptance testing and gathering feedback from groups
- Experience with version control (SVN)
- UI/UX skills a PLUS

What You'll Get:

- A unique opportunity to set strategy and build out a new enterprise customer platform
- A role as a major decision-maker in the operations of a high growth start-up
- Work in an entrepreneurial culture with zero bureaucracy

If you are interested in joining a team passionate about making kick-ass new technology that Batman would wear to work, send your resume & cover letter to admin@rufuslabs.com. Please take some time to review our company and solutions and tell us why you'd like to work at Rufus. All final candidates will go through a team review and interview process to ensure the right fit. Lone wolves need not apply.

We look forward to hearing from you. Thanks!
