

Recent College Graduates: Northrop Grumman is **HIRING!**

At Northrop Grumman, our work with cutting-edge technology is driven by something human: the lives our technology protects. We're united by our work to help people. And that mission makes our team even stronger.

Join us and you'll be supported by training, employee resource groups, and our shared vision of global security. We see the value of our performance every day. We are Northrop Grumman. And excellence is at the heart of what we do.

Software Engineers: Our Redondo Beach office is seeking software engineers who will be responsible for the full life-cycle of various software systems. Selected candidates will work in a dynamic people- focused environment who will interact with users, customers and other developers.

Requirements include:

- * Computer Science and/or Computer Engineering degree
- * Experience programming in C, C++ or JAVA
- * Software design, development, unit testing and integration experience
- * Excellent written and verbal communication skills
- * U.S. Citizenship and ability to obtain a security clearance is required

If you are a flexible self-starter looking for a challenging opportunity to work with a team of talented experts, here is your opportunity.
