

**RESEARCH ASSISTANT OPPORTUNITY,  
ACADEMIC CREDIT AVAILABLE:**

---

**Adaptation and Development of a Quit Smoking  
Program for Korean Youth 14-19 Years of Age**

---

The purpose of this study is to develop a totally virtual web and smart phone health education app as an intervention for stopping cigarette smoking among Korean youth, ages 14-19 in the Koreatown area. This app will be tested in a randomized clinical trial.

**Responsibilities:** RA's on this project will be working primarily on participant recruitment (which involves working with adolescents 14-19) for the assessment of stop smoking videos included in the study. RA's will also work on launching the app to Koreans both domestically and internationally. 6-10 hrs/ week for SRP 99 (2 units) or 8-10 hrs/ week, PSYCH 196 (4 units)

**Required Qualifications:** Ability to work as part of a team, ability to visit the Koreatown area, strong ability to communicate orally and in writing in English and/or Korean, must be detail oriented, advanced skills with Microsoft Office, or GIS Software, or App Development

**Preferred Qualifications:** Interest in addictions, engineering or bioengineering, design of health care applications, urban planning, or studying the organization of communities, and knowledgeable about Asian, particularly Korean, culture and communities.
