

NIH BD2K Center of Excellence @UCLA

Data Science Research Internship

One full-time paid position is available for our summer research internship (40 hours per week; 12 weeks) and part-time for Fall/Winter (20 hours per week; 10 weeks) quarters. We offer compensation based on experience.

The **Big Data to Knowledge (BD2K) Center of Excellence at UCLA** (heartbd2k.org) is a unique federally funded organization that seeks to advance the science and applicability of Big Data to biomedical research. Candidates will work closely with clinicians, bioinformaticians, and computer scientists in a leading laboratory to research and apply text-mining and statistical methods to discover new insights from clinical data and scientific literature.

Requirements:

- UCLA Student
- Background in Computer Science, Math, Statistics, or Life Science
- Familiarity with statistical programming

Preferred:

- Experience with text-mining, bioinformatics, and/or biostatistics
- Knowledge of proteomics and/or cardiovascular biology and medicine

Please send your resume to admin@heartbd2k.org by **June 3, 2016**.

We believe a diverse team will come up with the most creative solutions. We encourage applications from women and underrepresented groups.
