

Are you interested in the field of
Petroleum & Geosystems Engineering?

Here's your opportunity to get
involved in a rewarding summer
research internship available at
The University of Texas at Austin

The Summer Undergraduate Research Internship (SURI) brings together innovative undergraduate minds from across the country to UT Austin to research hot energy topics with faculty members.

Students from any engineering, science or geology major may apply. Travel to Austin, a competitive stipend and on-campus housing is provided.
