

Please Note: This are just two examples of what your curriculum *might* look like based on requirements from the 2022-2023 school year. Requirements can be subject to change for the 2023-2024 school year. Once school has started, you can meet with a counselor from your major to come up with an individualized course plan based on your specific transfer credit. Students are not guaranteed to get any specific class during any specific quarter.
