Description

You will be responsible for working closely with our design/UI/UX team and developing the iOS app which will manage the natural human interfaces for robotics. Sound interesting enough? Read on!

Here are some of the things we are looking for:

- Deep customer empathy and ability to quickly translate insights, whiteboard sessions, napkin sketches and water cooler talks into mockups, wireframes, and working proof-of-concept code
- Expertise in quickly translating design (Adobe illustrator, Photoshop, PDF, PNGs) into working iOS code
- Work with our team of scientists and engineers to ensure compatibility with our human interface technology
- Ability to mock out server side dependencies to move fast. Knowledge of server side development processes, tools, and technology is a huge plus
- Get stuff done really fast and smart

Qualifications

- Hackathon expert
- 6+ years experience developing web, software, or mobile applications
- BS/MS in computer science or equivalent
- Capable of end-to-end product development: Ideation, Interaction Design, Rapid Prototyping, Iteration, Deployment, Approval, Support etc.
- Strong experience with any of the following Object Oriented Languages (OOD):
- Experience with the entire Software Development Life Cycle (SDLC)
- 2+ years experience with web services (consuming or creating) with REST or SOAP
- Solid communication skills: Demonstrated ability to explain complex technical issues to both technical and non-technical audiences
- Strong understanding of the Software design/architecture process
- Experience with unit testing & Test Driven Development (TDD)
- Ability to prototype really fast and improvise
- Expert knowledge writing Objective-C, Swift and utilizing iOS Frameworks
- Managing a team of developers
- Managing release schedules of Apps

Preferred Experience:

- Experience developing, maintaining, and innovating large scale, consumer facing web or mobile applications
- Developing, deploying and maintaining large scale consumer apps on AWS or other cloud tech
- Familiar with the development challenges inherent with highly scalable and available web applications
- Experience with various, modern web frameworks
- Android experience is a plus
- Experience working in the trenches of a start-up is a Plus
- Position based out of Pasadena offices. Local candidates preferred.

Personality Traits:

- No Ego when your ideas or code is scrapped or rejected
- Ability to change direction rapidly after grasping
- Ability to have team rally behind you
- Work long, hard hours in a smart way
- Enjoys team activities and working in an open culture environment with horizontal organizational structure

Application Requirements:

Please send the following to careers @ Oben dot me
