Opening for Part-Time Mechanical Engineer

Surfx Technologies LLC
2631 Manhattan Beach Blvd., Redondo Beach, CA 90278

Learn valuable skills to enhance your career opportunities!

Surfx is looking for a part-time mechanical engineer, B.S., M.S., or PhD level, to help design semiconductor processing equipment. The engineer will be required to model flow processes using CFD software, and to develop 3D CAD drawings of equipment using SolidWorks.

Surfx is a fast growing company located in Redondo Beach, California (25 minute drive from UCLA). We sell equipment to the semiconductor, electronics assembly, aerospace, and medical device industries. Our products are used to clean and activate material surfaces for adhesion. For more information please see www.surfxtechnologies.com.

We are looking for a smart, motivated person with strong technical skills, who is a good communicator, and available to work for one to three years while attending school at UCLA. The student will be expected to work 10 to 20 hours per week during the school year, and full time during the summer.

Please provide a resume listing pertinent experience and unofficial transcripts. The applicant should have completed at least two years of University-level education. Surfx Technologies LLC is an equal opportunity employer.

Email your application to jobs@surfxtechnologies.com.
