# Cameron Bowers

---

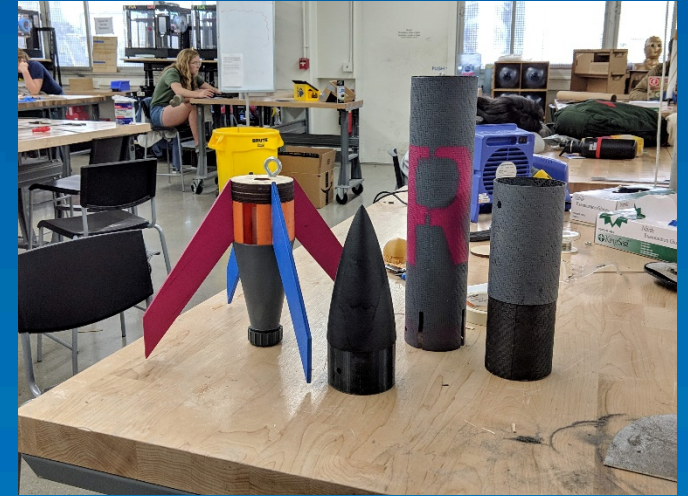

- I am a 3rd-year Aerospace Engineering student (transfer)
- I am currently the External Structures Lead for Project Ares, which is Rocket Project's flagship liquid-bipropellant competition rocket team
- My other extracurriculars include working on satellite control systems for the Bruin Spacecraft Group and promoting transfer advocacy as a staff member for the Transfer Student Representative Office

*2020-2021 Full Rocket CAD  
Project Ares  
Rocket Project at UCLA*

# Hannah Lin

- 2<sup>nd</sup> year Mechanical Engineering
  - Minor in musicology
-  ASME
  - Bruin Underwater Robotics, FADE, secretary
- Bruin Space: RAPID
- Engineering 96: Rockets
- Fiat Lux: Great Composers of UCLA
- Hobbies: photography, baking, working out
- Things you can ask me about:
  - Club involvement, adding a minor, student life...

# Andy Muratalla

---

## Graduating 4<sup>th</sup> Year Aerospace Engineer

- Obtained research experience in both Chemical and Electrical engineering disciplines, despite my major not aligning with department
- President of the Society of Latinx Engineers and Scientists (SOLES)
- Was able to fully fund my tuition and housing costs with the help of UCLA Financial Aid and Scholarships

# Sahith Obbu - Student

---

- Mechanical Engineering Major with a minor in Film (Junior)
- Extracurriculars:
  - Model UN- Secretary-General for BruinMUN 2021
  - Mentorship
  - Greek Life (?) - Chapter Treasurer 2019
  - CalTeach
- Internship Experience in Data Analytics/Sciences
- About Me!
  - I love reading and music, miss camping dearly, and have possibly too much poultry in my diet

# Ian Pascual (2nd year Aero. Engr. major)

---

- I am a 2nd year Aerospace Engineering major from Utah with additional interests in swimming, beach volleyball, and music.
- I am an active member of **Design-Build-Fly** (building airplanes) and also **Rocket Project** (building rockets), working on both the Computer-Aided Design and Manufacturing teams.
- My specific interests within Aerospace Engineering are currently in areas of fluid dynamics and simulations.
- I believe that the engineering programs at UCLA offer a great balance between theoretical concepts (classes, lectures) and hands-on experience (labs, clubs).

# Megan Williams

- 4<sup>th</sup> Year Mechanical Engineering Student
- Extracurriculars
  - Bruin Racing: Baja SAE
  - Prof. Pilon's Heat Transfer Laboratory
- Technical Interests
  - Sustainable energy
  - Medical devices
- Hobbies
  - Reading (Baja has a book club!)
  - Cooking
  - Hiking
