Subject: [TEC]: TCA Mentorship Program (Apply by Nov 1)  
Reply-to: [tca.mentorship@tecbruins.org](mailto:tca.mentorship@tecbruins.org)

WHAT: Tech Coast Angels (TCA) Mentorship Program  
WHEN: Phase 1 - Application deadline - Monday, Nov 1, Midnight  
HOW: Apply at <http://tecbruins.org/activities/tca-mentorship/apply>

The Tech Coast Angels (TCA) is currently accepting applications for their Mentorship Program through the UCLA Office of Intellectual Property (OIP).

TCA members are investors who are experienced in building start-up companies and who want to lend their assistance to the UCLA community. In the past 10 years TCA has funded more than 130 startups with \$100 million of their own money and attracted venture capital funding that approaches a billion dollars. This level of activity makes TCA the largest angel group in the country.

A TCA Mentorship will consist of up to 3 mentoring sessions where you will receive personalized counseling for your technology from an expert who is knowledgeable in your field. We invite you to take advantage of invaluable opportunity. Steps have been taken to protect your intellectual property through the application process.

Several ideas have received funding from either investors or the government after having gone through the Mentorship, such as Tribogenics, Librede and TensorMed.

Deadline for the application is Monday Nov 1, 2010. A 5-minute presentation is required on Friday Nov 5, 2010. The application and more information is available on the following website <http://tecbruins.org/activities/tca-mentorship>

This program is presented by the Technical Entrepreneur Community (TEC), Society for Post-Doctoral Scholars (SoPS), and the Entrepreneur Association (EA).

For more information please contact us at [tca.mentorship@tecbruins.org](mailto:tca.mentorship@tecbruins.org)

Kind regards,

- The TEC Team  
Technical Entrepreneurial Community
