

CALL FOR APPLICATIONS!

The **Technology Fellows Program** at UCLA OIP-ISR offers a unique compensated opportunity for graduate students to gain in-depth experience in evaluating, patenting, and commercializing university technologies.

Program alumni have successfully transitioned into exciting careers in such fields as:

- *Management consulting*
- *Venture capital*
- *Technology transfer*
- *Business development*
- *Regulatory affairs*
- *Patent law*

APPLICANTS

The Tech Fellows program is open to all UCLA graduate students. We especially encourage applications from students with strong technical backgrounds in the life sciences, engineering, chemistry, and computer science. Typical projects include assessing the commercial viability of new inventions, identifying potential licensees or investors, developing marketing materials, and analyzing patent literature.

APPLICATIONS AND ELIGIBILITY

We will be taking applications for Spring 2014 until **January 31st, 2014**, aiming to recruit 10+ new TechFellows. Students with appointments >25% will need to obtain an employment exception from their department after receiving an offer letter. For more information on the application process, please visit: <http://oip.ucla.edu/techfellows>

And for program alumni profiles, see:
