

## **Technical Article Rewriting**

We are looking for a part time engineering consulting position to rewrite technical articles. This is an exciting entry-level job for EE major student looking to gain working experience. You can work from campus or from home. We are using special software to facility the rewrite. It is similar to paraphrasing. Candidate's first language should be English or very good technical writing in English. He/she should be at least junior and major in Electrical Engineering.

### **Qualifications:**

Junior or Senior or graduate student major in Electrical Engineering.

Must be an excellent technical writer in English.

Able to work independently with minimum supervision.

Must be self-motivated to learn new engineering concepts.

Applicant may email resume directly to [info@accelinstruments.com](mailto:info@accelinstruments.com)
