

The Metropolitan Water District of Southern California

Hello Engineering Students:

The Metropolitan Water District of Southern California's Engineering Services Group is extending the application deadline for the year-round internship program through April 30th. The year-round internships are designed to augment the students' studies with practical work experience at Metropolitan.

Metropolitan's Engineering Services Group designs and manages the construction of water-related structures and facilities, including pipelines, water treatment facilities, operations centers, hydropower plants, reservoirs and numerous regulating structures.

For more information on each specific year-round internship, please click the link below:
