

Company: Topcoder iOS Community
Type: Part Time
Title: Design and Develop iOS Apps

Love designing and developing mobile apps? Want to work on your own schedule and build apps for some of the world's best brands?

As a member of the iOS Community at Topcoder you'll have an opportunity to earn cash by solving interesting problems for real-world organizations – and work whenever and as much as you like. Some members use Topcoder to supplement their income from a day job, while others make their living entirely through Topcoder.

Not only can you earn cash by competing in iOS/Swift app design and development challenges on Topcoder, but you can also sharpen your skills, try your hand at new things, and gain recognition for your accomplishments by earning badges.

Here's how it works.

Complex, real-world customer requirements are broken into a variety of competitions so Topcoder members can work on the areas they know best like graphic design, prototyping, architecting solutions, algorithms, or developing code.

While our competitors are racing toward the winner's circle, they also befriend, mentor, and encourage each other. Topcoder fosters a real sense of community where friendly rivalries are the order of the day. It's not uncommon to see Topcoders from all over the world competing on the same challenges and giving tips to their fellow competitors in our discussion forums.

Topcoder has been hosting technical competitions since 2001 and is viewed as one of the top online technical communities in the world. We have more than 850,000 members and have awarded nearly \$75 million in cash to date.

Ready to get started?

First, join the iOS Community at Topcoder at <http://go.appirio.com/ios-community-register>. There's no charge to join or participate, no commitment required, and we never share our members' email addresses with outside organizations.

Next, check out our Swift/iOS design and development challenges. If you see a challenge that's interesting, simply signup and submit your work before the deadline for a chance to win. In most challenges, multiple members can earn cash by being one of the top finishers.

Finally, check out the forums and interact with your fellow members. Topcoder is a vibrant and growing community, and everyone is encouraged to post and respond to questions.

For any additional questions, please contact Greg Bell at ios@topcoder.com.
