

UCLA Center for Research in Engineering, Media, and Performance (REMAP)

UCLA REMAP, a joint center of the School of Theater, Film and Television and Henry Samueli School of Engineering and Applied Science, has an opening for a paid undergraduate researcher from Summer 2017 – Spring 2018. This technical position will support and extend an open source multi-imager person tracking system (<http://opentrack.org/>) <http://opentrack.org/%29>> used in education, entertainment, and artistic deployments at UCLA and internationally. Experience with Linux is required; experience with computer vision, point cloud processing, the Robot Operating System (ROS), embedded systems, and/or GPU acceleration is preferred. To apply, please send a PDF resume to Jeff Burke jburke@remap.ucla.edu <<mailto:jburke@remap.ucla.edu>>.
