

Vitesse EE Position

Vitesse is currently recruiting for an MTS -- Characterization Engineer position. You may review the job posting through the link below:

https://www.vitesse.com/careers/employment.php?job_code=3690

Please notice that the job requires 2+ years directly related experience. However, we would like to extend this career opportunity to students from your school and we would consider new college graduates with a BS, MS or PhD degree in Electrical Engineering or related field. The selected candidate will be provided with a mentor and on-the-job training.

Please kindly assist us with this recruiting effort by:

1. Circulating the position announcement to the students
2. Nominating students who are well-suited for this position to us

Qualified candidates may send their resumes to veronica@vitesse.com <mailto:veronica@vitesse.com>.

In addition, our Company would also like to participate in future recruiting fairs organized by your school. Please provide me with any relevant information including registration details.

Thank you for your assistance with our recruiting effort.

Veronica Villaseñor

Sr. HR Coordinator

(805) 388-7426
